Executive Summary
ETS Major Field Test Data Analysis for LU Students
Academic Years 2004-2009

Major Field Tests (MFT), developed by Educational Testing Service (ETS), provide colleges and universities with the means to assess academic achievement of students within major disciplines. The Major Field Tests are nationally normed, standardized exams that are available for the following disciplines: Biology, Business, Chemistry, Computer Science, Criminal Justice, Economics, Education, History, Literature in English, Mathematics, Music Theory and History, Physics, Political Science, Psychology and Sociology. A total score (scaled score) is reported for each student that completes the test and percentile rankings are available on ETS's website at http://www.ets.org.

The Major Field Test Data Analysis provides information regarding Lincoln University students who have taken an ETS Major Field Test during academic years 2004, 2005, 2006, 2007, 2008 and 2009. Due to the fact that there is not a MFT specifically designed for Marketing or Public Administration majors, Lincoln University's Marketing and Public Administration majors take the Business Major Field Test. All information used to complete this analysis was obtained from the MFT database that is maintained by Lincoln University's Assessment Coordinator.

A total of 855 Lincoln University students have taken the ETS Major Field Test within their discipline during academic years 2004 (190 students), 2005 (158), 2006 (131), 2007 (111 students), 2008 (114) and 2009 (151). Of the 855 students,198 (23%) scored at or above the 50th percentile while 657 (77%) scored below the 50th percentile.
