Executive Summary
CAAP Critical Thinking Test Data Analysis for
Academic Years 2002-2006

The Collegiate Assessment of Academic Proficiency (CAAP) Critical Thinking Test, developed by ACT, is a nationally normed, standardized exam that is designed to assess college student's critical thinking skills. Lincoln University administers the CAAP Critical Thinking Test to students after the successful completion of 75 credit hours (including transfer credits). An individual score and national percentile rank are reported for each student that completes the test. ACT provides national sophomore percentile ranks for comparison purposes.

The CAAP Critical Thinking Test Data Analysis provides information regarding those students who have taken the CAAP Critical Thinking Test during academic years 2002, 2003, 2004, 2005, and 2006. All information used to complete this analysis was obtained from the student information system.

A total of 1,466 students have taken the CAAP Critical Thinking Test during academic years 2002 (295 students), 2003 (284 students), 2004 (341 students), 2005 (248 student) and 2006 (298 students). Of the 1,466 students, 522 (36%) scored at or above the 50th percentile while 944 (64%) scored below the 50th percentile.
