New Courses

AGR 431 **Basic Statistics for Agr and Nr Research** (3, fa, sp) This course introduces statistical concepts and methods commonly used in agriculture and natural resources research. Through hands-on data analysis using R statistical software, students will learn to construct histograms, boxplots, and scatterplots to visualize distributions; apply probability rules involving random variables, probability distributions, and the central limit theorem perform hypothesis tests and calculate statistical power; build and interpret linear regression models; conduct one-way, two-way, and repeated measures ANOVA and appropriate post-hoc tests; fit and make inferences from generalized linear models including logistic and Poisson regression; and effectively communicate statistical results in tables, graphs, and written text. No prior background in statistics is required. Course requirements include weekly homework assignments, collaborative in-class lab sessions, exams assessing conceptual understanding, a semester-long data analysis project, and participation in activities and discussions. Upon completion, students will have gained fundamental statistical literacy and the training needed to successfully design, conduct, analyze, and communicate findings from quantitative research projects in agriculture and natural resource disciplines.

ENT 101 **Intro to Entrepreneurship** (3) This course is designed to provide students with a firm understanding of the critical role entrepreneurs and entrepreneurship plays in the domestic and global economies. While in this course, students will learn how entrepreneurship will be analyzed, discussed, assessed, and explored from an experientially interdisciplinary viewpoint. Prerequisites: Take BAD-101, BAD 215, BAD 250.

ENT 250 **Entrepreneurial Opportunities and Concepts** (3) A course designed to teach students how to determine the feasibility of a business concept and provide students with the tools necessary to identify opportunities for venture success. Students will be able to determine the feasibility of for-profit and not-for-profit concepts. This course will show students how to test their business idea through customer discovery, business and revenue modeling problem-solving or effectuation, and the ability to communicate all findings to stakeholders. Prerequisite: Take ENT-101.

- ENT 407** **Entrepreneurship Internship** (3) Supervised practical instruction with a small business, Small Business Development Center, or entrepreneur along with an academic component monitored by faculty. Prerequisite: Senior standing or permission of instructor.
- ENT 409** **Special Topics** (3) Topic to be listed in course schedule. May enroll again as topic changes.
- MUS 100** **Introduction to Music Theory** (2) An elementary course in the theory of music including the fundamentals.
- PED 320** **Assessment in Fitness & Wellness** (3, fa) This course will provide the theoretical and practical information, plus experience in the development, implementation, and interpretation of a variety of assessments used in various health, fitness, wellness, and coaching settings. Prerequisites: Take PED-111, PEP-200, PEP-201 with a grade of "C" or better. Must be Wellness Major.
- PEP 320** **Assessment in Physical Education** (3, fa) This course will provide theoretical and practical information, plus experience in the development, implementation, and interpretation of a variety of assessments used in the K-12 Physical Education classroom and Education-based Athletics. Including formative, progressive, summative, culminating, cognitive, psychomotor, affective, Performance-based, Standards-based, and Standardized. Prerequisites: Take PEP-200 PEP-201 with a grade "C" or better. Must be PE Major.
- WEL 218** **Introduction to Holistic Wellness** (3, fa, sp) Introduction to the theories, research, concepts, applications, and experiences of holistic health and wellness. Students will be introduced to the six dimensions of holistic wellness (mental, physical, emotional, spiritual, social, and occupational) to promote optimal lifelong health and wellness, including an active approach in experiencing all six key components. Recommended Prerequisite: Take PED-111 with a grade of "C" or better.
