ENVIRONMENTAL SCIENCE WORKSHOP FOR K-12 EDUCATORS

Jefferson City, MO- **Lincoln University Cooperative Research (LUCR) Department of Agriculture and Environmental Sciences** will sponsor an Environmental Science workshop Tuesday, July 9 through Thursday, July 11, 2013.

This three-day workshop is for K-12 educators and will be held on the Lincoln University campus. Topics to be covered include fisheries biology/aquaculture, geospatial information science (GIS), natural resource inventory, water quality, waste management, green structures and more. Participants will earn two college credits (undergraduate or graduate).

Funding for this workshop is from a Capacity Building Grant (CBG) awarded by the United States Department of Agriculture (USDA). The workshop is free but limited to the first 20 pre-registered educators.

For additional information, please contact Debra Hanlin by calling (573) 681-5380 or email HanlinD2@LincolnU.edu.
